10000w power inverter factory in Vietnam

Overview

Where are PV inverters made?

The plant specializes in grid-tied and hybrid inverters. GoodWe, a China-based PV inverter manufacturer, has started operations at its first overseas manufacturing plant in Haiphong, Vietnam. The facility covers approximately 14,800 square meters and will initially specialize in the production of grid-tied and hybrid inverters.

How many inverters does Growatt produce a year?

Growatt has an expansion plan to achieve an annual production capacity of 500,000 units of inverters and 100,000 units of batteries to serve the growing U.S. market as well as other markets throughout the world. Growatt inaugurates new factory in Vietnam.

How many GW is a Phase 1 production plant in Vietnam?

“The factory is expected to achieve an annual capacity of approximately 5 GW once Phase I's production lines reach full operational status,” a company spokesperson told pv magazine. The company said it expects that establishing production in Vietnam will enhance its price competitiveness in global markets.

10000w power inverter factory in Vietnam

- ✓ 100KW/174KWh
- ✓ Parallel up-to 3sets
- ✓ IP Grade 54
- ✓ EMS AND BMS

GoodWe's Inverter Plant in Vietnam Operational - PVTIME

PVTIME - On 11 March 2024, a grand opening ceremony was held for a PV inverter production base initiated by GoodWe, the global leader in solar inverters and energy storage solutions, ...
