

## BLINK SOLAR

# 100kW Solar Containerized Unit

### Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Oversizing
- Max. PV Input Current 16A, Compatible with High Power Modules

### Intelligent Simple O&M

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

### Flexible Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc-fault is detected the inverter immediately stops operation

## Overview

---

How much does a 100kW Solar System cost?

Because different area, the electricity bill is different. The 100kw grid tie solar system cost is \$30,468 (2024.4.9 price), and the electricity bill is \$0.23/kwh. And this is not included the installation cost and the shipping fee. So the system can be paid back in 2 years roughly.

How many solar panels do you need for a 100kW Solar System?

We use 580w solar panel in the 100kw solar system. The solar panel size is 2.5m<sup>2</sup> for one pcs. So we will need at least 500m<sup>2</sup> to put the 200kw solar system. No matter on grid or off grid solar system. You have 580W solar panels. For a 100kW solar system, you need to calculate how many panels are required. This gives approximately 168 panels.

How much power does a 150kW 200kW solar system produce?

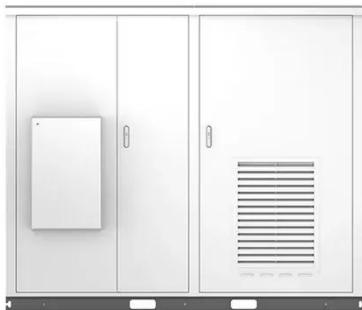

150kW solar plant required 260pcs 580w solar panels, total will take up about 676 m<sup>2</sup> (7276 ft<sup>2</sup>). 200kW solar plant required 338pcs 550w solar panels, total will take up about 879 m<sup>2</sup> (9462 ft<sup>2</sup>). How much power does a 100kW 150kW 200kW solar system produce?

What configurations make up a 100kva 100kW solar power plant?

The following configurations make up a complete 100kva 100kW solar power plant: Optional solar mounting support, PV combiner boxes, and cables. PVMARS provides a complete turnkey PV energy storage system solution. After we complete production, the system delivered to you can be used immediately after connections are made.
