100kWh Off-Grid Solar Container for Field Research

Overview

What is a 100kW off-grid Solar System?

A 100kW off-grid solar system provides continuous power to all commercial and industrial areas even in the most remote locations. This solar system ensures that you will never run out of power. Explore more: [Off Grid Solar System – A peace of mind with battery bank, advantage & disadvantage, FAQs and all details.](#)

Where is harvested energy stored?

Harvested energy is stored in Lithium LiFePO4 battery banks with its own programmed BMS (Battery Management System).

What is a solar power generator?

A silent, worry-free alternative to loud and dirty diesel generators to meet high off-grid power needs using solar power generation – with optional wind turbine (s) for augmented power generation day and night. Harvested power stored in a choice of batteries including Lithium Ion, EV Second Life Batteries, and deep-cycle AGM batteries.

Where can a portable power container be used?

The MOBIPOWER portable power container can be used virtually anywhere on the planet and will produce and store all the power you will need.
