# 15kW Colombian Solar Storage Container Transaction

## Overview

---

Is Colombia a good place to invest in solar power?

Colombia has attractive market fundamentals, offering high irradiation, strong demand for renewables and a supportive regulatory environment. Colombia is expected to add more than 5 GW of solar capacity over the next five years.

“This agreement marks an important step for Scatec as we enter the Colombian market with a commercially robust project.

Where is a solar project located in Colombia?

The project will be located in Nariño, just over 100 kilometres west of Bogotá. Colombia has attractive market fundamentals, offering high irradiation, strong demand for renewables and a supportive regulatory environment. Colombia is expected to add more than 5 GW of solar capacity over the next five years.

How much does Scatec spend on a solar plant?

The estimated total capital expenditure (capex) for the solar plant is USD 110 million, and Scatec will be the designated Engineering, Procurement and Construction (EPC) provider with an EPC scope of approximately 80% of capex. Scatec will further provide Operations & Maintenance (O&M) and Asset Management (AM) services for the plant.
