# 24-hour outdoor solar energy site recommendation

## Overview

---

What is 247 solar?

247Solar, Inc. 247Solar Plant creates concentrated solar power energy with its breakthrough solar receiver design and a proprietary thermal storage system, combined with other proven technologies and off-the-shelf components, to produce the world's lowest-cost 24/7 solar electricity.

Do outdoor solar lighting systems work in the United States?

Outdoor solar lighting systems work well in most areas of the United States. However, it is important to consider geographic and site-specific variables when choosing a product. A solar lighting system will work well only as long as the solar cells receive the manufacturer's recommended hours of sunlight.

Will a solar lighting system work nightly?

A solar lighting system will work well only as long as the solar cells receive the manufacturer's recommended hours of sunlight. The "nightly run time" listings on most outdoor solar lighting systems are based on specific sunlight conditions.

What are some home uses for outdoor solar lighting?

Popular home uses for outdoor solar lighting include pathway light sets, wall-mounted lamps, freestanding lamp posts, and security lights. Outdoor solar lighting systems use solar cells, which convert sunlight into electricity. The electricity is stored in batteries for use at night.
