240v circuit breaker for sale in Belgium

Overview

What is a 240V circuit breaker?

A circuit breaker 240V is also known as a double-pole circuit breaker. It is mainly used to protect a dedicated circuit for high-power appliances such as electric ranges, air conditioners, and more. This breaker is rated chiefly from 20 to 60 amps. Since a 240V breaker is as big as two 120v breakers, it takes up two places in a load center.

What is a circuit breaker & a switch disconnecter?

Circuit breakers protect electrical cables and machines from overloads, short circuits and insulation failures. Switch disconnectors switch lines on and off, mainly to de-energize and isolate a part of the network before servicing it. ● ComPacT molded case circuit breakers (MCCB) ComPacT for cable and machine protection from 100A to 3200A.

What is a Powerpact molded case circuit breaker?

PowerPacT molded case circuit breakers (MCCBs) protect cables and loads rated up to 3200 A, from overloads, short-circuits, and leakage currents. High breaking capacities allow them to protect smaller lines located close to a powerful source. Space-saving PowerPacT NSXm, rated up to 160A, with breaking capacity up to 70 kA (under 400 V).

What is a molded case circuit breaker (MCCB)?

ComPacT molded case circuit breakers (MCCB) ComPacT for cable and machine protection from 100A to 3200A. ● MasterPact air circuit breakers (ACB) for the protection of low-voltage lines up to 6300A. ● Disconnectors and main switches, MasterPact, ComPact and FuPact for manual or remote-controlled switching of low-voltage lines up to 6300A.
