40-foot Folding Container Manufacturer

Overview

What is a 40 footer container?

There is also another type of 40 footer container called the 40 Footer High Cube Container where the dimensions are around the same as the 40 footer container except for its height. It's length is around 40 feet or around 12.192m, width around 2.438m and height around 2.896m (which is taller than the 40 footer container, hence its name high cube).

What is a seafold 40' container?

A collapsed bundle of five SeaFold 40' containers accommodates the same slot as one conventional 40' High Cube container creating 80% more storage and operating cost efficiencies at terminals, railheads, and ports, along with reducing lifts and container movement on ships, truck, rail, and barges.

What is a 40-foot shipping container home?

The generous dimensions of a 40-foot container offer ample room for various features. This impressive 40-foot shipping container home floor plan even incorporates a utility space. This versatile area can serve as a home for washers and dryers or a compact workshop.

What is a seafold container?

In maritime operations, SeaFold containers deliver substantial cost savings for one-way cargo shipments through more efficient loading and unloading procedures. Their design allows for additional stowage space on mainline and feeder vessels, which in turn reduces the vessel's time in port.
