# **500kW Solar-Powered Container for Emergency Command**

## Overview

---

How to choose a 500 kW / 1075 kWh containerized energy storage system?

When choosing a 500 kW / 1075 kWh containerized energy storage system, you need to consider your application scenarios, equipment performance, system security, scalability, vendor reputation and many other factors. Ensure that the system you choose can meet your long-term needs and provide adequate support and service guarantees.

What is Sunway ESS battery energy storage system (BESS)?

Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

What is a containerized energy storage system?

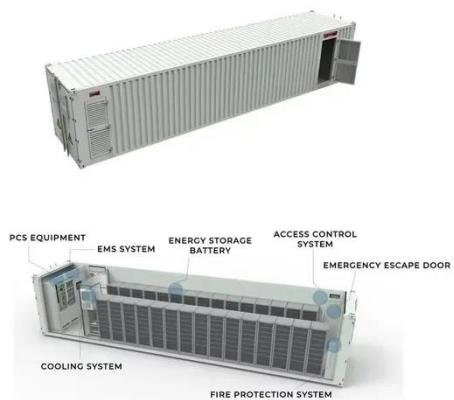

This containerized energy storage system not only integrates the most advanced technology, but also becomes the global leader in the field of energy storage with its excellent performance, efficient energy management and unparalleled reliability.

What is a containerised energy storage system (BESS)?

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. For installation manual, technical datasheet, inverter adjustment/testing or configuration, please send us inquiry.
