# **500kWh South Sudanese collapsible container used for power station**

## Overview

---

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.

What is a power container?

Connectivity and Integration: These containers are designed for easy integration with existing power infrastructure. They come with necessary electrical connections and are often equipped with remote monitoring and control capabilities, allowing operators to manage the system from a distance.
