50kw sunsynk inverter factory in Bandung

Overview

What is a sunsynk 3 phase 50kW hybrid inverter?

The Sunsynk 3-Phase 50kw Hybrid inverter is a highly efficient power management tool that allows the user to hit those 'parity' targets by managing power flow from multiple sources such as solar, mains power (grid), and generators, and then effectively storing and releasing power as and when utilities require.

What is a Sunsynk inverter?

The Sunsynk is an 8kW Single Phase Hybrid Inverter with an LCD Touch screen for easy operation. It has a highly efficient power management tool that allows users to select 'parity' targets by managing power coming from multiple sources such as solar, mains grid, and generator, and then effectively storing and directing power as required.

How much energy can a sunsynk inverter handle?

This high-efficiency inverter can handle up to 65,000W of energy, so you'll never be without power! With remote monitoring capabilities through our dedicated Sunsynk Connect app, you can track the efficiency of your system on-the-go, helping you to stay ahead of potential issues to ensure optimal performance.

Does sunsynk support 3 phase unbalanced output?

It supports three phase unbalanced output, extending the application scenarios. Introducing the Sunsynk 50kW Three Phase Hybrid Inverter – the perfect solution for commercial and industrial applications. This high-efficiency inverter can handle up to 65,000W of energy, so you'll never be without power!
