5kw on solar container grid inverter for sale in New-Zealand

Overview

What is a solar inverter?

A solar inverter converts the energy output from solar panels into a usable electricity form, to be used in your home or business. Our range includes grid-tied, hybrid and off-grid inverters. A Grid-tied Inverter is designed to connect to supplement your home or business' mains power.

What types of inverters are available?

Our range includes grid-tied, hybrid and off-grid inverters. A Grid-tied Inverter is designed to connect to supplement your home or business' mains power. When there is solar energy to use, the system will deliver it and when there is insufficient energy to deliver, the system will switch back to grid power.

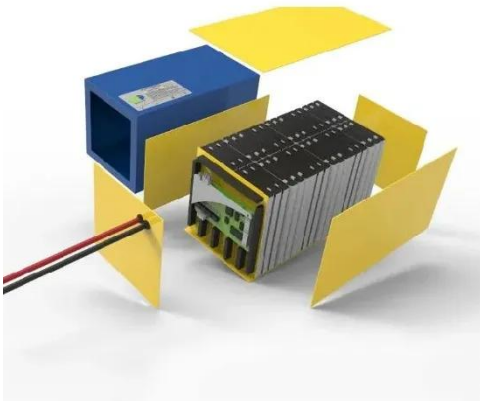

What is a hybrid inverter?

The Hybrid Inverter enables you to optimise the amount of power you generate and consume, and minimise transfer of energy to/from the grid or generator power. You can increase the proportion of self-use energy generated by your solar system, from 20% to more than 80%!.

What is sigenergy hybrid & off-grid inverter?

Sigenergy Hybrid & Off-grid Inverter is packed with safety features and allows seamless integration of Sigen Battery packs whenever you're ready to expand your solar system. The S6 energy storage (hybrid) inverter offers maximum efficiencies of up to 97.7% and supports consumption monitoring with a smart meter.

5kw on solar container grid inverter for sale in New-Zealand

Solax Generation 4, 5kW Single Phase Hybrid Inverter , Mainergy Solar
