60kWh Energy Storage Container for Bangkok Wastewater Treatment Plant

Overview

Who is PAPOP wastewater treatment & biogas technology provider in Thailand?

Papop has been the leading wastewater treatment and biogas technology provider in Thailand for more than 30 years. Our technology includes UASB and anaerobic digestion from wastewater as well as wastes from starch, palm oil, ethanol, food processing industries. We also provide rooftop solar and water reuse/recycling system.

How much energy does a containerized wastewater treatment plant use?

No planning or buildings are required to operate a containerized wastewater treatment plant - the plant simply needs to be placed on a solid base. This saves costs in advance, and the system is also highly efficient during operation: a 20-foot container only needs 13 kWh/d. Container.One, Container.One+, Container.Pro and Container.Xtra.
