ASEAN supports new energy storage

Overview

Does ASEAN have an Energy Transition Index?

In 2025, most ASEAN countries had achieved an energy transition index higher than the average, reflecting the region's efforts towards energy transition. One of the critical aspects of the energy transition is ensuring that the necessary infrastructure, technologies, and policies are in place to accelerate the integration of renewable energy (RE).

What is the role of ASEAN Centre for Energy (ACE)?

The official YouTube channel of ASEAN Centre for Energy (ACE). ACE produces outputs as per its three critical roles: catalyst, knowledge hub, and policy advisory. In order to fulfill its mandate.

Is ASEAN ready for the energy transition?

Ensuring ASEAN is ready for the energy transition will require the region and its member states to scale up current plans for grid expansion and refurbishment to meet projected electricity generation needs, as well as a fundamental rethinking of energy market design to enhance grid flexibility and reliability.

What should ASEAN do about smart grid deployment?

ASEAN should set clear, measurable regional targets for smart grid deployment, cross-border interconnection capacity, and grid flexibility enhancements by 2030 and 2040. These targets should be backed by national implementation plans that align with long-term energy and climate commitments.

ASEAN supports new energy storage

ABB BESS Paper

In this context, Behind-the-Meter (BTM) Battery Energy Storage Systems (BESS) stands as a key enabler of this transformation, offering innovative solutions to enhance energy ...

ERIA Workshop Showcases AI, Blockchain, and Energy Storage ...

Bangkok, 26 September 2025: ERIA, in collaboration with the ASEAN Centre for Energy (ACE) and the Electricity Generating Authority of Thailand (EGAT), convened the Second Regional ...

ASEAN Resilient Grid Capacity Building Programme ...

Dr. Cheng identified pumped storage as a mature and economically viable flexible regulation resource, crucial for clean energy-dominated power systems. This training aims to ...

From emission-intensive to investment hotspots: ...

Viet Nam, the Philippines and Indonesia can lead ASEAN's clean energy future, but requires supporting policies with bold and near-term actions to secure investment and stay ...

ASEAN Clean Energy and Storage Market Surges in Early 2025

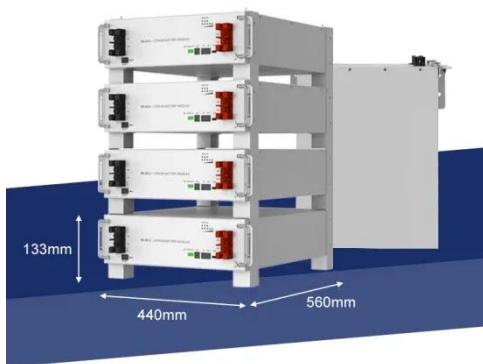

As the global shift toward clean energy accelerates, the ASEAN region continues to emerge as a key growth hub for new energy and storage solutions. From January to May 2025, Southeast ...

Reframing enabling policies for enhancing ASEAN's ...

In 2025, most ASEAN countries had achieved an energy transition index higher than the average, reflecting the region's efforts towards energy transition. One of the critical ...

Grid-Scale Battery Storage: SynVista Backs ASEAN Solutions

SynVista advocates localized grid-scale battery storage at ASEAN Battery Conference, highlighting Li-ion as the region's anchor technology.

Why ASEAN's energy transition needs bold action now

Mott MacDonald's energy sector leader for Asia, Philip Napier-Moore, explores the opportunities and challenges shaping ASEAN's clean energy transition - and what must ...
