**Add 20 000 to upgrade the
battery cabinet**

Overview

Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet. See Figure 2 and Figure 3 for line-up-and-match configuration views. Contains two or three battery strings to be used with the 93E 30 kVA UPS.

Can a battery cabinet be used with a ups?

The battery cabinet frame is not referenced to the DC circuit. Each battery cabinet has its own overcurrent protection device. External battery cabinets can be used in combination with a UPS containing internal batteries. Internal battery strings are to be connected by an authorized Eaton Customer Service Engineer.

How many smartli lithium battery cabinets can be connected?

Scenario where SmartLi 3.0 lithium battery cabinets are deployed outside the smart module: One integrated UPS can connect to a maximum of 10 SmartLi 3.0 lithium battery cabinets. When multiple cabinets are connected in parallel, only the master cabinet has an LCD.

What is a zinc five battery cabinet?

ZincFive's BC Series Battery Cabinets, while housing NiZn batteries with all of their associated benefits, adapt the lead-acid charging system to the needs of the nickel-zinc battery. The battery cabinets' intelligent charging & monitoring system emulates the profile of lead-acid batteries to the UPS.

Add 20 000 to upgrade the battery cabinet

Learn How to Upgrade Your Car's Battery Safely!
