After-sales service for a 1MW photovoltaic energy storage container

Overview

What is a Megatrons 1MW battery energy storage system?

MEGATRONS 1MW Battery Energy Storage System is the ideal fit for AC coupled grid and commercial applications. Utilizing Tier 1 280Ah LFP battery cells, each BESS is designed for a install friendly plug-and-play commissioning. Each system is constructed in a environmentally controlled container including fire suppression.

What is Sunway ESS battery energy storage system (BESS)?

Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

What is a containerised energy storage system (BESS)?

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. For installation manual, technical datasheet, inverter adjustment/testing or configuration, please send us inquiry.

What ancillary services does a meg-1000 provide?

The MEG-1000 provides the ancillary service at the front-of-the-meter such as renewable energy moving average, frequency regulation, backup, black start and demand response. MEG-1000's enhance the flexibility, economy, and safety of traditional power systems and significantly improve renewable energy access.
