# Amsterdam energy storage inverter production

 **TAX FREE**    

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

**ENERGY STORAGE SYSTEM**

## Overview

---

Which battery storage facility is built by RWE in the Netherlands?

The battery storage facility in Moerdijk is the second battery storage facility to be built by RWE in the Netherlands: the company started construction of a battery storage facility in Eemshaven at the beginning of the year with an installed capacity of 35 MW and a storage capacity of 41 MWh.

What is Moerdijk battery storage?

With its ability to provide or absorb electricity within milliseconds, the system will help to safeguard the electricity grid. This function is called inertia. The Moerdijk battery storage project is part of the system integration solutions for OranjeWind, the Dutch offshore wind project by RWE and TotalEnergies.

When will a 200mw/800mwh battery energy storage project connect to the grid?

The second and final phase of this 200MW/800MWh battery energy storage project is set to connect to the grid by the end of 2025. The two-phase development is set to enhance grid stability and provide reliable, clean energy for up to 96,000 households in Belgium.

Why is ENGIE building a Battery Park in Vilvoorde?

“With the first series of batteries now operational in Vilvoorde, ENGIE is delivering part of the additional flexibility the electricity grid requires to balance supply and demand. The efficient construction of this battery park is only possible thanks to strong partnerships.
