## Overview

---

What does Bess stand for?

The tender for the design, manufacture, installation and 20-year operations & maintenance (O&M) of battery energy storage systems (BESS) for Power China's 2025-2026 projects was announced on 13 November, and the results were released last week.

Did power China work on a Bess project in Zhangjiakou?

A BESS project in Zhangjiakou that Power China worked on. Image: China Power Construction Group.

Does Bess participate in active and reactive power prices?

To evaluate the positive impact of BESS participation in the active and reactive power prices, a new performance index as the average active and reactive power price is introduced by dividing total prices during a day by 24, as shown in Fig. 20.

Does Bess effect on active power losses?

BESS effect on active power losses in three case studies. In the proposed trapezoidal model indicated in Fig. 4, due to active and reactive power prices, BESS bids in all market periods are expressed in the lower part of trapezoids 3 and 4, i.e., the maximum reactive power sales at the boundary points of the curve (at maximum active power).
