BESS installation in Morocco

Overview

Is Morocco preparing to launch a 1.6 GW Bess project?

Morocco is preparing to launch a massive foray into clean energy with its ambitious 1.6 GW BESS projects. The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW.

What are Morocco's Bess projects?

Morocco's 1.6 GW BESS projects represent a key step in its clean energy ambitions. The facilities will electrify key urban areas and firm up the grid. Although the initial focus is in the northwest, the government aims nationwide. Furthermore, the projects align with Morocco's ambitions to generate 52% of its electricity from renewables by 2030.

What does Bess stand for?

The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW. Furthermore, the action is in line with Morocco's plan to develop more renewable energy infrastructure.

Can ONEE secure a Bess plant independently?

This is ONEE's first attempt at securing BESS plants independently. Meanwhile, the Moroccan Agency for Sustainable Energy (Masen) is also in contention. It recently tendered for solar-independent power projects with battery storage.

BESS installation in Morocco
