Bahamas PV Panel Inverter

Overview

Who does Bahamas solar work with?

Bahamas Solar works with a number of the leading solar manufacturers and distributors across the globe. Going solar has never been easier. Here at Bahama Solar we take care of your project from start to finish. Offering full turn key systems for all residential and commercial operations. Serving all the Bahamas, from Nassau to the out islands.

How long does a Bahama solar installation take?

Bahama Solar installs: Solar installation is the fun part, our customers get to see the whole system come together. Installation timelines range from one to five days. Installation Steps Monitoring insures your solar panels are working properly by tracking the output of your solar system.

Who is Island Solar?

Island Solar is a company based in Nassau, Bahamas that specializes in installing solar electric (photovoltaic) systems. They focus on commercial systems ranging from 50 kW to multi-megawatt utility scale systems, ensuring safety, high quality, and code compliance.

What is the Bahamas national energy policy?

The latest release of The Bahamas National Energy Policy documents the country's plans to implement renewable energy generation. This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours. Solar Power can offset a significant part of your power bill.
