Barbados solar Module Project

Overview

What is the renewable Barbados Project?

The European Union and Barbados have taken an important step towards a sustainable energy future with the launch of the Renewable Barbados project which aims to integrate solar power with on-site green hydrogen storage to provide a reliable, stable, and clean electricity supply to Barbados.

Does Barbados use solar panels?

Solar panels are seen more and more frequently across Barbados. Similar to the ubiquitous solar water heater on Barbadian rooftops, the Government of Barbados is fully committed to the idea of renewable energy and solar PV, thereby preparing the country for even more substantial growth in this sector.

What is the installed solar PV capacity in Barbados?

The total installed solar PV capacity in Barbados is about 22MW (12MW RER + 10MW utility).

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a. Continue reading →

Barbados solar Module Project

Environmental and Social Review Summary (ESRS) ...

1. General Information of the Project and Overview of Scope of IDB Invest's Review Renewable (Barbados) Inc. ("RSB", the "Client" or the "Company") is proposing to ...

Launch of the Renewable Barbados Project

The European Union and Barbados have taken an important step towards a sustainable energy future with the launch of the Renewable Barbados project which aims to ...

Barbados solar project: Stunning 50MW Power Boost ...

The RSB (Renewable Solutions Barbados) Group has been granted a license by the Fair Trading Commission (FTC) to operate a 50 MW solar photovoltaic project in ...

Renewstable® Barbados Power Plant Project

1. Project Scope and Objective, and IDB Invest Participation Renewstable® (Barbados) Inc. (the "Client" or the "Company") is proposing to construct and operate a ...

Government set to open largest multimillion-dollar energy ...

A \$350 million hybrid renewable energy power plant is scheduled to be constructed in Barbados. It will be the largest, most advanced facility in the area, as BioEnergy ...

Barbados finalizes plans to construct a 60 MW portfolio of ...

Jurchen Technology, a German-based manufacturer of racking and direct current (dc) cabling solar power plants, in partnership with Blue Circle Energy, a renewable energy ...

Solar Energy in Barbados: Challenges and Breakthroughs

Case Study: Renewstable Barbados Project This EU-backed initiative launched in March 2025 combines 50MW solar PV with green hydrogen storage - a first for the Caribbean. By day, ...

EIB Backs Barbados Solar-Hydrogen Storage with Grants

EIB backs Barbados' leap to green energy with the RSB project, integrating solar and hydrogen to revolutionize the island's power grid and cut fossil fuel reliance by 50%.

Barbados to build 60 MW of community solar gardens

Jurchen Technology and Blue Circle Energy have decided to develop a 60 MW portfolio of community solar gardens, distributed across 50 sites.
