Battery and inverter set

Overview

What is an inverter battery?

The inverter battery and inverter cables are usually connected to the power connection of the home. An inverter battery for home can be any rechargeable or secondary or storage battery (electrochemical power source) like a lead-acid battery, nickel-cadmium battery or Li-ion battery.

What type of batteries does this inverter support?

This inverter supports a flat plate, tubular, and SMF battery. It comes with an LCD and is backed by an intelligent 32 bit DSP processor. Moreover, it comes with a 6 water level indicator battery that requires minimum maintenance.

Do inverters need to be connected to batteries?

Connecting inverters to batteries is an important part of an off-grid power solution or backup power system, and the right connections ensure that the system runs efficiently.
