	periods of time.
	● Do not insert any foreign object into any part of the battery pack.

Overview

How to install UPS & battery cabinet?

1. Installation sequence is as follows: 1.1 First, determine the installation location of the UPS and battery cabinet upon arrival at the site. 1.2. Install the battery connection Wires.

Can a battery cabinet void a warranty?

Failure to follow guidelines may void your warranty. The battery cabinet is rated for operation in up to a 40°C (104°F) ambient temperature. The batteries are rated for a 25°C (77°F) ambient temperature to extend their useful life.

Where is the UPS battery cabinet located?

The battery cabinet may be located to either the right or left of the UPS cabinet. This procedure assumes the battery cabinet is located to the right of the UPS cabinet. 14. If line-up-and-match installation, remove the rectangular and circular knockout on the bottom and top front side of the UPS and the IBC-SW (see Figure 9). 15.

How do you wire a battery cabinet?

Secure the battery wiring to the wire tie anchors (see Figure 24) using Zip ties. Route the battery cabinet ground wiring from the UPS through the bottom side inter-cabinet access pass-through (see 4.4.1 Line-Up-and-Match Power Wiring) of the UPS cabinet and IBC-SW to the IBC-SW ground terminal block.
