Battery cabinet charging and discharging cabinet

Overview

What are battery charging cabinets?

Battery charging cabinets are a type of safety cabinet that's designed especially for lithium-ion batteries. Over the recent years, as the prevalence of lithium-ion batteries has grown in workplaces, battery cabinets have become more popular due to the many risk control measures that they provide.

What is a lithium-ion battery charging Safety Cabinet?

Justrite's Lithium-Ion battery Charging Safety Cabinet is engineered to charge and store lithium batteries safely. Made with a proprietary 9-layer ChargeGuard™ system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. [Shop Now.](#)

Why do you need a batteryguard Battery Cabinet?

A battery fire can devastate your business. With a Batteryguard battery cabinet, you charge and store your batteries with complete peace of mind. You protect your staff, prevent damage, and meet the requirements of your insurer. And in some countries, you may even benefit from financial incentives or grants.

How many batteries can a batteryguard charge?

Whether you use a few batteries or many, large or small: Batteryguard offers a suitable battery cabinet for every situation. We provide compact models that allow you to charge 2 to 10 batteries simultaneously.
