Battery energy storage investment funds

Overview

Are battery energy storage systems a good investment?

An expanding role for battery energy storage systems (BESS) in a more volatile grid is seeing demand and investment opportunities soar. Our new ranking of the top global markets for BESS investment can guide strategies, and four factors can help potential investors frame their approach.

Are battery funds a good investment?

As it stands, battery funds already have a relative lack of revenue security compared with other renewables trusts, for whom at least two-thirds of revenues are typically fixed. Stifel thinks the battery sector's attraction to investors would "increase meaningfully" if 30-40 per cent of revenues could be fixed for longer periods.

How to invest in battery technology?

Companies that supply raw materials for battery production are also part of this investment theme. In this investment guide, you will find all the ETFs that allow you to invest in battery technology. Currently, there are 4 indices available tracked by 4 ETFs.

What is Gresham House Energy Storage fund?

Gresham House Energy Storage Fund plc (LSE: GRID) is the UK's largest fund investing in utility-scale battery energy storage systems (known as BESS). GRID invests in a diversified portfolio of BESS projects across Great Britain and can also invest internationally.
