## Overview

---

What is a battery cabinet?

Our battery cabinet, also known as a battery enclosure or battery rack, is a specialized cabinet or housing designed to store and protect batteries used in various applications, including backup power systems, uninterruptible power supplies (UPS), renewable energy storage, telecommunications, and electric vehicles.

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.
