Belarus outdoor base stations in 2025

Overview

Could Russian Oreshnik missiles be deployed in Belarus?

New military bases are being built in Belarus, one of which, near Minsk, may be of strategic importance to Russia in the war against Ukraine, as experts believe Russian Oreshnik ballistic missiles may be deployed there.

Where is the Russian Oreshnik ballistic missile base being built?

The first base is being built near the village of Pavlovka, south of Minsk. Construction began in June 2024, and as of September 2025, the construction site covers over 2 sq km. The experts believe that Russian Oreshnik ballistic missile systems may be deployed there.

Could Russian Oreshnik missile systems be deployed in Slutsk?

Construction began in June 2024, and as of September 2025, the construction site covers over 2 sq km. The experts believe that Russian Oreshnik ballistic missile systems may be deployed there. A Soviet military base, Military Camp No. 25 Pavlovka, was formerly located on the site and hosted the Slutsk-based 306th Strategic Missile Regiment.

Could a former Soviet missile base house Oreshnik?

One site south of Minsk is being rebuilt on the grounds of a former Soviet missile base, and analysts believe it could house Oreshnik. The second is located near Homel, just 30 kilometers from Ukraine. Images show land clearance, new roads, and foundations for military infrastructure alongside a planned training ground.
