

BLINK SOLAR

Benin Energy Storage Product Manufacturer

Overview

Where does Benin sell its products?

Benin sells its products mainly to France and, in smaller quantities, to the Netherlands, Korea, Japan, and India. France is Benin's leading source for imports. Benin is also a member of the Economic Community of West African States (ECOWAS).

What type of energy is used in Benin?

Like for most countries in Sub-Saharan Africa, Benin's energy sector is largely dominated by the use of biomass-based energy sources (59.4%) (Tableau de Bord de l'Energie au Bénin, 2005), followed by petroleum products (38.4%) and, to a lesser degree, electricity (2.2%).

Who owns a business in Benin?

Smaller businesses are privately owned by Beninese citizens, but some firms are foreign owned, primarily French and Lebanese. The private commercial and agricultural sectors remain the principal contributors to growth. Since the transition to a democratic government in 1990, Benin has undergone an economic recovery.
