# **Berlin Solar Container 10MW**

## Overview

---

What is solarzentrum Berlin?

To start tapping more into the potential of solar energy, both in the private and the public sector, the SolarZentrum (solar centre) Berlin was opened in May 2019. It is a component of the “Masterplan Solarcity”, which works as an independent advisory centre on the topic of solar energy (SolarZentrum Berlin, only in German).

Can solar energy be used in Berlin?

So far, solar energy has been used more heavily in boroughs on the periphery. There are, however, many potential areas in the remaining parts of the city. Here you can peruse detailed information on the long-term potential of solar energy use in Berlin.

How many solar thermal systems are there in Berlin?

As of Ma, there were about 8,250 solar thermal systems in the State of Berlin with an installed collector surface of more than 81,000 m<sup>2</sup> (last update as of Decemfor 7,733 systems, IP SYSCON 2016). Averaged over the years, the collector surface amounted to around 10 m<sup>2</sup> per system.

How many photovoltaic systems are there in Berlin?

Compared to solar thermal energy, there are far more photovoltaic systems registered in Berlin. As of J, 20,985 systems were in place, with a total installed capacity of around 230 MWp.

## Berlin Solar Container 10MW

---

### Solar Systems 2023

This information becomes even more important, as from Janu, solar systems have been mandatory for new buildings and existing buildings following substantial ...
