Best portable power station cheap Buyer

Overview

What is the best portable power station?

I've put over 120 portable power stations to the test to discover the absolute best. My top pick for an affordable option is the EcoFlow River 2 -- right now priced at the crazy low price of \$199, it delivers an impressive 600W of power.

Which power station should I buy?

With over 40 top-rated power stations tested, my overall pick is the EcoFlow Delta 3 Plus. It's a great all-rounder with a decent 1024Wh battery capacity suitable for general use at home, in the car, and on job sites. In our review, we liked the fast charging, port selection, and the UPS with a 10ms switchover for continuous power.

How much does a portable power station cost?

Outputs Portable power stations can get expensive, but this model from Bluetti is a fantastic budget-friendly option, currently retailing for \$330. Despite its lower price, it's a powerful unit capable of delivering 1,000W output for regular loads and up to 2,000W for resistive loads like heaters or hair dryers.

What is the best portable power station for camping?

EcoFlow Delta Mini (882Wh) (Update: Out of stock): When we tested it, this model hit a sweet spot of basic functionality, capacity and price, earning it a spot on our list as the best portable power station for camping. It also supported charging with solar panels. Unfortunately, it's no longer available for sale.
