Overview

Who is building the first solar power station in Kyrgyzstan?

Construction of the first solar power station (SPS) in Kyrgyzstan with a capacity of 300 megawatts has begun in Toru-Aigyr in Issyk-Kul region. Bishkek Solar LLC, which is building the facility, reports. Toru-Aigyr 2022 is being built on the basis of public-private partnership.

Where is a 300 MW photovoltaic power station being built?

Bishkek, 21 May 2024. The Eurasian Development Bank (EDB) and Bishkek Solar have signed a cooperation agreement to finance the construction of a 300 MW photovoltaic power station in Toru-Aigyr village, Issyk-Kul Region, Kyrgyz Republic. The signing ceremony took place on 21 May in Bishkek, Kyrgyzstan.

Why should Kyrgyzstan invest in Kulanak HPP?

As part of the Central Asian Water and Energy Complex mega-project, the Kulanak HPP is expected to contribute to energy security and strengthen Kyrgyzstan's position in Central Asia's electricity market. The EDB has extensive experience in renewable energy projects.

Will EDB's Kulanak power plant comply with international standards?

The power plant will fully comply with international environmental and technical standards," emphasised Denis Ilin, EDB Senior Managing Director. The EDB is also implementing a project for the construction and operation of the Kulanak HPP, worth up to US \$127 million.
