

**BLINK SOLAR**

# **Boston battery energy storage manufacturer**

## Overview

---

Who makes lithium ion batteries?

Boston Power manufactures and markets lithium-ion batteries for transportation, utility energy storage, portable power, and government market applications internationally. It offers battery cells, blocks, modules, and systems; lithium-ion batteries for electric vehicles; and custom solutions for various format battery packs.

Could Boston-area battery companies power electric cars and smart grids?

Formed out of research at MIT, Worcester Polytechnic Institute and other nearby research institutions, these companies are developing technology that could power electric vehicles and smart grids of the future. Venture capital firms are betting big on Boston-area battery companies, too.

Who makes a solid-state battery?

Factorial Energy manufactures solid-state batteries that allow electric vehicles to drive 50 percent longer than conventional lithium-ion batteries, according to the company. The Woburn-based company launched from stealth last year and has raised \$240 million, including a \$200 million Series D in January.

Where are the best battery companies in the world?

The Boston area is home to some of the most well-renowned battery innovation companies in the world. Formed out of research at MIT, Worcester Polytechnic Institute and other nearby research institutions, these companies are developing technology that could power electric vehicles and smart grids of the future.
