**5 Years
warranty**

Overview

How long does a portable power station last?

A portable power station's lifespan depends on the type of battery inside. Most new portable power stations, including all the models we recommend here, feature LiFePO4 battery technology, which lasts far longer than older lithium-ion technology. How much more?

LiFePO4 power stations will last for more than 3,000 charge cycles, or about 10 years.

What do you do with a portable power station?

To relax, he loves experimenting with new recipes, tweaking his smart home setup, and spending time outdoors on his bike or camping. Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

Do portable power stations have a weather rating?

However, other portable power stations do not have a weather rating, so it's important to check if you plan on using your power station outdoors.

Regardless, it's a good idea to protect your power station from any water or severe weather conditions as much as possible.

Are portable power stations loud?

While these fans are far quieter than the roar of a gas-powered generator, they do still create some noise. Smaller power stations are about as loud as a small fan, while larger ones produce about the same amount of noise as a refrigerator. How long do portable power stations last?
