# **Botswana solar panel manufacturers price**

## Overview

---

Does Botswana have solar energy?

Botswana has abundant solar energy resources, receiving over 3,200 hours of sunshine per year with an average insulation on a horizontal surface of 21MJ/m<sup>2</sup>, one of the highest rates of insulation in the world. It is essential to take advantage of the abundance of this resource.

Which solar still is best suited for Botswana?

After years of research and development activities, the RIIC findings concluded that the Mexican and brick solar stills are the best suited for application in Botswana. The Mexican still consists of a moulded fibreglass basin of 1.6 m<sup>2</sup> base area to hold saline water and has gutters on two sides to collect the distillate.
