Brazil Sao Paulo Government Energy Storage Project

Overview

Could energy storage systems strengthen Brazil's National Interconnected System (SIN) grid?

Brazilian consultant CELA has said the inclusion of electrical energy storage systems in a federal government capacity reserve auction which could take place in June 2025 could reinforce Brazil's National Interconnected System (SIN) grid.

How will energy storage regulation shape Brazil's energy future?

By advancing energy storage regulation, the agency seeks to enhance system efficiency, accommodate renewable energy growth, and empower stakeholders across the energy sector. ANEEL opens the second phase of Public Consultation on energy storage regulation to shape Brazil's energy future.

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Will Brazil's first electricity auction drive \$450m investment?

Brazil is set to conduct its first auction for adding batteries and storage systems to the national power grid, as reported by Reuters. The auction, to take place in June 2025, will include 300MW energy capacity purchase that could drive an estimated \$450m in investments from winning bidders, according to consultants Oliver Wyman.
