Bulgaria installs solar panels

Overview

How big is Bulgaria's solar power?

In a matter of months, Bulgaria's total solar power capacity is set to exceed 3 GW, compared to just 1.3 GW at the end of 2021. The lineup in the list of the largest photovoltaic plants is changing almost every week as major facilities come online, and there is more in the pipeline.

What is the largest solar project in Bulgaria?

This makes the 400 MW Apriltsi project not only Bulgaria's largest solar park but also the largest in Eastern Europe and the Balkans, capable of powering 96 thousand homes. Of particular note, the Apriltsi project represents the world's largest single-site heterojunction solar project.

Who is global solar Bulgaria?

Global Solar Bulgaria – Да докоснем слънцето! Wide experience in the photovoltaic energy sector. Over 17,900 MW capacity. Wide experience in the industry, land supply, relationship and work with the state. A perfect combination of global experience and expertise to further focus on technological advancement. Surveillance and monitoring of systems.

Are solar panels a viable option for self-consumption in Bulgaria?

Conversely, households and institutions interested in installing solar panels for self-consumption are still stuck with administrative hurdles. In the statistics of the International Renewable Energy Agency (IRENA), Bulgaria had 1.28 GW at the end of 2021 and 1.95 GW just one year later. The measure is expressed in nominal or peak capacity.
