## Overview

---

Who makes supercapacitor in China?

Kamcap is one of the leading supercapacitor manufacturers in China. We supply high-quality ultracapacitors, including coin type supercapacitor, winding type supercapacitor, combined type supercapacitor, module supercaps, high temperature supercap and hybrid capacitor.

What is a high temperature supercapacitor?

High temperature supercapacitor series include 2.7v high temperature supercap and 5.5v high temperature supercap. These ultracapacitor can work under the temperature up to 85 °C. Kamcap supplies 2.3v hybrid supercapacitor HBM series.

What types of ultracapacitor are available?

We supply high-quality ultracapacitors, including coin type supercapacitor, winding type supercapacitor, combined type supercapacitor, module supercaps, high temperature supercap and hybrid capacitor. Kamcap is devoted to the research and development of ultracapacitor and strictly control the ultracapacitor production.

What is the operating temperature of a supercapacitor?

Operating temperature range from -40°C to +85°C and a voltage tolerance range from 3.6V to 6.3V. These supercapacitors boast an energy density that is 8 to 10 times higher than that of EDLC (Electrochemical Double Layer Capacitors). They can withstand voltages of up to 4.2V.

#### cairo energy storage capacitor

A supercapacitor is a double-layer capacitor that has very high capacitance but low voltage limits. Supercapacitors store more energy than electrolytic capacitors and they are rated in farads (F)
