Canadian Solar System Products

Overview

Who is Canadian Solar?

Chairman and President Dr. Shawn Qu founded Canadian Solar in 2001 with a bold vision: to foster sustainable development and to make lives better by bringing electricity powered by the sun to millions of people worldwide. Over 20,000 dedicated employees of Canadian Solar (NASDAQ: CSIQ) strive each day to make this vision a reality.

Is Canadian Solar a good company?

Consistently ranking as one of the top solar panel companies, Canadian Solar is a highly-sought after provider of solar solutions and PV module manufacturer. Canadian Solar has worked hard to obtain massive growth in order to offer sustainable energy solutions to the world. When looking for the ultimate in quality, Canadian Solar is the answer.

Where is Canadian Solar made?

The company's corporate headquarters is located in Guelph, Ontario, and it maintains a 500 MW manufacturing facility in Canada. The company also operates a major U.S. manufacturing facility in Mesquite, Texas. That said, the vast majority of Canadian Solar's module manufacturing is done in China.

How many countries does Canadian Solar have a subsidiary?

To date, Canadian Solar has business subsidiaries in 20 different countries, on 6 continents, making them one of the top providers of solar solutions and manufacturers of PV modules, on a global scale. Canadian Solar has provided more than 38 GW of high-quality solar modules to their global customers.
