## Overview

---

Do you need an off-grid solar system in Canberra?

One of the biggest advantages of having an off-grid solar system in Canberra, ACT is reduced energy costs, as rural consumers are often asked by utility providers to pay excessive grid connection fees. If your building can't connect to the local power grid, an off-grid system is exactly what you need.

What is a containerised Offgrid system?

Power where the grid can't go — delivered in a single, rugged container. MyEnergy designs and builds turnkey off-grid systems inside 10-, 20- or 40-foot containers, pre-wired, factory-tested and ready to run the moment they land on site. What is a containerised off-grid system?

Can GES energy install an off-grid Solar System?

Our in-house, SAA-accredited off-grid solar specialists can supply, design and install an off-grid system for you, even if you're located in an isolated area without access to the local grid. With GES Energy on your side, you can have peace of mind knowing that your off-grid system will be installed correctly.

What is a commercial off-grid system?

Commercial Off-Grid System (starts from 40kW) This system (which starts from 40kW) provides clean and green electricity to businesses that can't connect to the grid or to enterprises that want to disconnect from the grid. It also allows them to save money on diesel generator fuel and gives them energy independence.
