

# Chile Valparaiso and EK cooperate on new energy storage

ESS

## Overview

---

Where are Chile's battery energy storage facilities located?

Chile's first battery energy storage projects were commissioned in 2009, and all but two of its 16 administrative regions have facilities in operation, under construction or in the planning stage. The greatest installed capacity is found in the northern regions of Antofagasta and Tarapacá, the country's solar powerhouses.

Why is Chile pursuing energy storage in Antofagasta?

Chilean president Gabriel Boric (centre) at the inauguration of an energy storage plant in the northern region of Antofagasta in April 2024. Chile has strong conditions for wind and solar energy, and is pursuing storage to help overcome intermittent supply (Image: Ximena Navarro / Dirección de Prensa, Presidencia de la República de Chile).

Will Chile's storage capacity double in 2032?

The energy ministry spokesperson told Dialogue Earth that the country's environmental assessment body is currently assessing the viability of 300 more storage projects, with a total capacity of 16 GW. According to some projections, between 2026 and 2032, Chile's total storage capacity could double to 4 GW.

Will Chile support the energy transition?

A spokesperson for Engie Group told Dialogue Earth that Chile is seen as one of its strategic countries for supporting the energy transition, which "entails the investment of USD 1.8 billion by 2027. Our plan in Chile considers incorporating 1.4 GW to reach 2 GW of installed capacity in clean energy, including 2 GWh in storage systems".

## Chile Valparaiso and EK cooperate on new energy storage

---

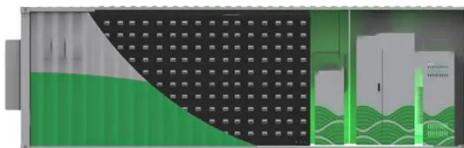

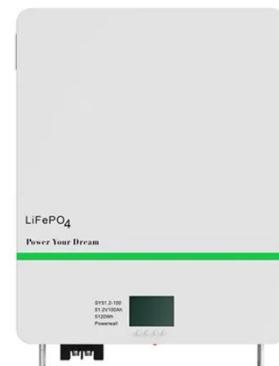

### New Energy Storage Project in Valparaiso Chile Powering a ...

SunContainer Innovations - Summary: Valparaiso, Chile, is making waves in renewable energy with its groundbreaking energy storage initiative. This article explores how the project ...

## Energy Storage Batteries in Valparaiso Chile Key Features ...

With its unique coastal geography and growing industrial demand, energy storage batteries play a pivotal role in stabilizing power grids and supporting sustainability goals. This article explores

...

### Chile Focuses on Solar and Storage as ...

Chile is rapidly moving to build more power generation capacity, with much of that effort focused on renewable energy resources and ...

## Valparaiso Wind-Solar Hybrid Power Station: Chile's Renewable Energy

Where Is the Valparaiso Wind and Solar Energy Storage Power Station Located? Nestled in Chile's Coquimbo Region, the Valparaiso wind and solar energy storage power station sits ...

## Eurus Energy proposes solar-plus-1.1 GWh ...

A solar+storage project has been submitted for environment assessment in Chile, with a 280 MW solar PV site, and 280MW, five-hour ...

## Energy storage is a challenge and an ...

The sharp growth in renewable energy production, and the pursuit of ambitious global targets on new capacity, bring with them a ...

## Chile Leads Latin America with the Largest ...

Chile has taken a significant step in the development of clean energy with the

inauguration of the largest battery energy storage system (BESS) in Latin ...

### **More than 3.4 GWh of Chilean batteries enter environmental ...**

Three standalone BESS with a total of more than 2.8 MWh of energy storage capacity were submitted for environmental assessment in Chile in the space of a week. ...
