China all in one solar system in Algeria

Overview

Who will ship Astronergy n-type solar modules to Algeria?

China International Water & Electric Corp. (CWE) and the Power Construction Corporation of China (POWERCHINA) will ship one gigawatt (GW) of Astronergy n-type TOPCon solar modules to Algeria. The 220MW Biskra project is one of the largest in the 2,000MW plan, and its construction has already started.

Is Algeria a solar power country?

The country has limited potential for hydropower generation and has little experience with power generation from renewable resources other than solar and hydropower. As of August 2019, Algeria had 5600 MW capacity of solar power plants under construction.

What is Algeria's 2,000 MW solar plan?

The 2,000MW plan is a photovoltaic power plant construction plan proposed by Sonelgaz, Algeria's state-owned power utility. The plan is to build 15 solar power plants in the country's 12 provinces, each with a capacity ranging from 80 to 220 MW. Most of the solar projects in this plan are constructed by Chinese companies.

When will a 300 MW solar power plant be built in Algeria?

The state-owned China State Construction Engineering Corporation (CSCEC) began building a 300 MW solar power plant in Algeria's Oued Province in March 2024 as part of the Solar 1,000 MW program. The project is slated for completion by late 2025 or early 2026.
