China solar power to battery in Doha

Overview

Where is Qatar's first solar power plant?

Qatar's first solar power plant, built by Chinese companies, was put into operation on Tuesday, marking a milestone for the country in energy transition. The 800MW Al Kharsaah Solar Power Plant, located in the desert area about 80 kilometers west of its capital Doha, is one of the largest in the Middle East.

How much Chinese equipment is used in Al Kharsaah solar power plant?

"Chinese equipment was applied throughout the project's 800 MW photovoltaic area, which makes up more than 60 percent of the total investment," said Li Jun, on-site construction manager of Al Kharsaah Solar Power Plant.

Where is Al-Kharsaah solar power plant located?

An aerial view of the Al-Kharsaah Solar Power Plant. The Al-Kharsaah Solar Power Plant, developed in the Al-Kharsaah area of western Qatar on a 10-square-kilometer area of land, is the country's first non-fossil fuel power plant and currently the world's third-largest single-unit photovoltaic power project.

What is Qatar's first non-fossil power plant?

With a total investment of \$417 million, it is the first non-fossil fuel power station in the country endowed with petroleum and natural gas. As Qatar's first large-scale ground solar power plant connected to the grid at full capacity, the Al Kharsaah project can meet 10 percent of the country's peak electricity demand.
