China solar power to battery in Egypt

Overview

Egypt's Minister of Electricity and Renewable Energy, Mahmoud Esmat, met with China Energy representatives to discuss renewable energy cooperation, focusing on the localisation of the company's technology for manufacturing solar cells and energy storage batteries. Will Egypt create an energy storage battery factory?

The project was announced during a meeting in Cairo between Egyptian President Abdel Fattah al-Sissi and Sungrow Chairman Cao Renxian. The presidency stated that discussions focused on a plan to create an energy storage battery factory in Egypt with an annual production capacity of up to 10 gigawatts (GW).

Will Sungrow cooperate with Egypt to localize energy storage battery industry?

Cao highlighted his company's expertise in manufacturing power plant components and energy storage batteries, adding that Sungrow is ready to cooperate with Egypt to localize the energy storage battery industry.

Is China building a solar plant in Egypt?
