China thermal circuit breaker in South-Africa

Overview

What are the different types of thermal breakers?

Thermal breakers protect circuits from excess current in a similar way to a fuse, however, they often feature a switch allowing them to be reset if tripped. Common types of thermal breakers include thermal magnetic circuit breakers and thermal automotive circuit breakers.

What are thermal magnetic circuit breakers?

Thermal magnetic circuit breakers are devices that provide protection against overcurrent in circuits. Circuit breakers use an automatically operated electrical switch to disrupt the flow of current when an overload or short circuit is detected. Thermal magnetic circuit breakers do this using an electromagnet and bimetallic strips.

Who are the top circuit breaker manufacturers?

If you're searching for a trusted supplier for your business, here's the list of the top circuit breaker manufacturers in the country: CBI-electric or Circuit Breaker Industries has been serving its clients since 1949. It was part of the Reunert Group that forged a joint venture with New Jersey's Heinemann Electric Company in Trenton.

Why should you choose China Chint circuit breakers?

China CHINT provides customers with reliable and efficient power distribution products and system solutions. Among them, circuit breakers are capable to make, break and carries rated current in the circuit. And able to protect circuit and equipment in the case of overload, short circuit and undervoltage.
