Commercial Uninterruptible Power Supply Purchase

Overview

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) provides a source of power for the equipment it protects. If there is a disruption to power, the UPS has an on-board battery to automatically supply to electrical equipment until the disruption is over or back-up generators kick-in. What is a WIMES UPS?

.

How do I Choose an uninterruptible power supply for DC applications?

Our uninterruptible power supplies for DC applications provide reliable protection against supply interruptions. Select the appropriate DC UPS for your application. Our uninterruptible power supplies for AC applications provide a pure sine curve at the output. Select the ideal AC UPS and ensure superior system availability.

How to choose a power supply for a DC application?

Select the appropriate power supply, uninterruptible power supply, and battery module for your application. Furthermore, our UPS modules with integrated power supply or integrated battery module offer a space-saving UPS solution. Our uninterruptible power supplies for DC applications provide reliable protection against supply interruptions.
