# Compact power station factory in Iraq

## Overview

---

Which is the largest thermal power plant in Iraq?

**AL KHAIRAT THERMAL POWER PLANT: THE LARGEST THERMAL POWER PLANT IN IRAQ.** Aligned with the development of the Karbala Refinery—a facility designed to process 140,000 barrels per day of heavy, high-sulfur fuel oil (HSFO)—the Iraqi Ministry of Oil launched plans for a thermal power plant to utilize this fuel.

How many substations will Siemens Energy build in Iraq?

Siemens Energy is working to install the 13 substations that the company is building in Iraq. The substations will strengthen the country's power infrastructure as part of the company's roadmap for electrification of the New Iraq.

What is al Khairat thermal power plant?

**FOSTERING A LONG-TERM VALUES WITH CLIENTS AND BUSINESS ASSOCIATES.** Al Khairat Thermal Power Plant is transforming Iraq's energy sector. Supplying over 10% of the country's electricity, this project boosts energy capacity, drives economic growth, and supports sustainable development in Karbala and beyond.

How will substations affect Iraq's power infrastructure?

The substations will strengthen the country's power infrastructure as part of an agreed roadmap for the electrification of the New Iraq. When fully commissioned, the substations will help to deliver enough power to the national grid equivalent to the electricity needs of more than two million citizens.
