Construction of solar hybrid power station in Cebu Philippines

Overview

Where is the biggest solar power plant in Cebu?

CEBU Gov. Gwen Garcia (center) leads the groundbreaking for the 150-megawatt solar power plant in Daanbantayan, Cebu. (Sugbo News) The power facility, which is set to be the biggest in Cebu, will be constructed on a 187-hectare, provincial government-owned property in Barangay Talisay, Daanbantayan town.

How will a solar power plant benefit Cebu province?

The power plant will provide a steady stream of revenue for the province of Cebu as it collects payment for the lease of its property, percentage shares of revenues from electricity sales, and brokerage fees. CEBU CITY – A 150-megawatt solar power plant will soon rise in the northern tip of Cebu province.

How will a solar power plant help the Philippines?

The 187-hectare solar power plant, which is a kilometer away from Talisay substation of the National Grid Corporation of the Philippines, will generate around 280 gigawatt-hours of clean energy annually that can serve 300,000 people. The project will also cut 259,000 tons of carbon dioxide emission annually.

Where will a 150-megawatt solar power plant be built?

Manila Bulletin Philippines Luzon Construction of 150-MW solar power plant commences in Cebu CEBU CITY – A 150-megawatt solar power plant will soon rise in the northern tip of Cebu province. CEBU Gov. Gwen Garcia (center) leads the groundbreaking for the 150-megawatt solar power plant in Daanbantayan, Cebu. (Sugbo News)
