

BLINK SOLAR

Costa Rica Customized solar container outdoor power Manufacturer

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg 197mm
 /7.7in

Product voltage: 3.2V

internal resistance: within 0.5

Overview

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why do you need a solar container?

Deploy power in hoursPerfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

What is a stand-alone solar system?

A stand-alone solar system is a self-contained and autonomous photovoltaic system ideal for remote areas where the electricity grid doesn't reach. Our smart grid system has solar panels, controller, inverters, and batteries. The energy from the panels is consumed directly or stored for nighttime use
