

BLINK SOLAR

Custom Outdoor Power Kit

Overview

What is a solar kit?

These solar kits were designed for those seeking a more traditional and customizable solar solution. With simple components and both lithium and AGM battery options (a budget-friendly alternative to lithium), these solar kits offer a versatile and cost-effective power solution for remote power needs.

What is a remote power kit (RPK)?

Experience flexibility and customization with our Remote Power Kits [RPK]. These solar kits were designed for those seeking a more traditional and customizable solar solution.

What is a power kit?

Unlike other RV power solutions, Power Kits combine five components into one Power Hub that deals with all your power needs, saving you space, money, and set-up hassle. Our 2 and 5kWh batteries securely stack in threes, giving you an expandable capacity of up to 15kWh.

How do power kits work?

Simply stack a battery to increase capacity, or plug in a solar panel to quickly recharge batteries. Unlike other off-grid power solutions, Power Kits combine five components into one Power Hub that deals with all your power needs, saving you space, money, and set-up hassle.
