# Customized energy storage power supply manufacturer in New York USA

## Overview

---

We offer expert custom power supply design services. Engineering, manufacturing, and support in one U.S.A. facility gives us an edge in design-for-manufacturability and providing fast turn-around.

Who is custom power?

See All Products Welcome to Custom Power! Custom Power is a premier custom battery pack manufacturer, specializing in complex Defense & Aerospace, Medical, and Industrial applications. We specialize in custom lithium-ion designs and offer assemblies in all other chemistries.

What is the New York battery & energy storage technology consortium?

The New York Battery and Energy Storage Technology (NY-BEST™) Consortium, established in 2010, serves as an expert resource for energy storage-related companies and organizations looking to grow their business in New York State.

Where are Bear Power Supplies made?

All Bear Power Supplies are designed and manufactured right here in the United States at our facility in western New York by Bear, a Made in USA power supply manufacturer. We combine modern automated equipment with skilled manual assembly to give you high-quality, cost-effective production.

Why is custom power so popular?

Industrial applications are increasing in popularity as the size of electronic components are continually reduced and processing power is increased. Since 1965, Custom Power has designed and assembled custom battery solutions for critical OEM devices.
