# **Cyprus Bureau 14 Energy Storage Project**

## Overview

---

Does Cyprus have a battery energy storage system?

Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country. Cyprus Energy Regulatory Authority (CERA) announced the approval earlier this week (18 June) of three projects which will be owned and operated by the Cyprus Transmission System Operator (TSOC).

Will Cyprus install 400MWh battery energy storage system?

Image: Cyprus government / MECI. Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country.

Is Cyprus facing a unique set of energy challenges?

In a keynote address to open a conference on energy storage and hydrogen in March, George Papanastasiou of the Ministry of Energy, Commerce and Industry (MECI) noted that Cyprus faces a “unique set of energy challenges, which require tailored solutions.”.

How is Cyprus developing pumped hydro energy storage capacity?

The country is also seeking to develop pumped hydro energy storage (PHES) capacity with technical assistance from the European Commission (EC) and is formulating a National Hydrogen Strategy. Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects.

## Cyprus Bureau 14 Energy Storage Project

### Cyprus launches grant mechanism for energy storage

Owners of renewable energy systems in Cyprus can apply from February 14 for grants to add energy storage, under a EUR 35 million program.

### Cyprus approves energy storage subsidy ...

Cyprus approves energy storage subsidy scheme Applications for participation in the scheme will be accepted from January ...

### Cyprus approves energy storage subsidy scheme

Cyprus approves energy storage subsidy scheme Applications for participation in the scheme will be accepted from Janu.

## Cyprus Bureau 14 Energy Storage Project

The project would combine 72MW of solar PV with a 41MW/82MWh lithium-ion battery energy storage system (BESS), making it the largest to-date of either technology ...

## Cyprus Launches First Major Battery Energy ...

Cyprus has commissioned its first major battery energy storage system (BESS). Discover the 50 MW project's partners, technical details, ...

## Cyprus Charges Ahead with Large-Scale ...

In an ambitious move towards a sustainable energy future, Cyprus is set to operationalize its first large-scale electricity storage ...

## Cyprus: Guidance issued for 150MW/350MWh energy storage ...

The government of Cyprus has published guidelines for a scheme to support the

deployment of approximately 150MW/350MWh of energy storage.

### **Cyprus unveils EUR35m scheme to boost energy storage capacity**

The Ministry of Energy has today published guidelines for its EUR35 million energy storage scheme, previously approved by the Council of Ministers, aimed at promoting energy ...
